OUR STORY

Since 2004, Highgrove Bathrooms has been supplying Australians with the highest quality bathroom fittings, accessories and sanitary ware. We pride ourselves on our ability to provide our customers with designer bathroom, kitchen and laundry products, at affordable prices.

With a huge range on display in our showrooms, you'll find everything you need to create the bathrooms of your dreams, under one single roof at Highgrove Bathrooms. We are able to supply the highest quality tapware, shower outlets, bath spouts and products that provide the utmost flexibility.

By introducing bathroom products which use interchangeable components, our customers have the ability to customise all of their fittings, create a unique bathroom design, as each component works with the other, across all our signature finishes.

Our commitment to manufacturing and supplying innovative products, at competitive prices has made us a trusted brand amongst trades, interior designers, architects, builders and DIY renovators across the country.

SUSTAINABILITY

At Highgrove Bathrooms, we're focused on delivering sustainable and eco-friendly products, to conserve water and reduce global warming.

Our brass is created from the recycled brass shavings left over from our machining operations. This precious resource is melted and re-used to manufacture our designer range of brushed brass taps, wastes and accessories.

The Water Efficiency Labelling Scheme (WELS) was implemented to help reduce the amount of unnecessary water usage. Meeting industry standards and regulations are core principles that underpin our business. Our support of WELS ensures all our products are tested in a laboratory under standardised conditions, in order to appoint a star rating score showing the product's water efficiency.

Highgrove Bathrooms is also a proud member of the Housing Industry Association (HIA), the official body that represents the interests of the housing industry at both regional and national levels.

VANITIES

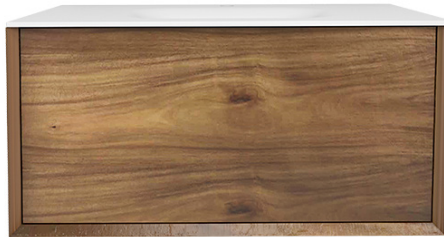

BARCLAY

The **BARCLAY Wall Hung Acacia Timber Vanity** series is superbly crafted from solid Acacia wood which is known for its stunning beauty and durability. The solid wood has beautiful grains that gives the vanity a touch of natural style to suit any modern, Hamptons or Coastal bathroom design.

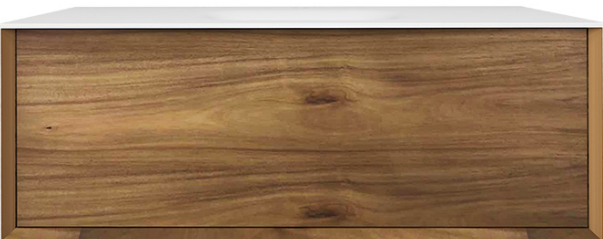

Featuring a single and large timber drawer, with black BLUM soft close technology, and a "hidden" top sliding drawer, with U Shape back for additional storage. Tops sold separately.

1200mm (BAR1200-T)

1500mm (BAR1500-T)

GLENROWAN

Our **GLENROWAN Marri Timber Wall Hung Vanity** blends the best in modern technology with beautiful natural resources to create a bespoke piece for your next bathroom renovation.

The GLENROWAN Timber Vanity includes distinct black veins for a unique bespoke look, which works beautifully with Concrete Basins, Brushed Nickel or Brushed Brass Tapware. The natural warmth of the GLENROWAN Wall Hung Vanity is ideal for those looking to create a Contemporary, Resort-like and calming space. Includes Blum Soft Close drawer runner system for an extra touch of luxury. Tops sold separately.

SEANNA

Our **SEANNA Marri Timber Wall Hung Vanity** is a unique bathroom statement piece that blends the best in modern technology with beautiful natural resources to create a bespoke piece for your next bathroom renovation.

This Eco-friendly design uses water-resistant properties for minimal maintenance, to ensure they don't expand and contract over time. The Rattan drawer front detail blends beautifully with a variety of design styles such as Country, Bohemian and Coastal. Includes Blum Soft Close drawer runner system for an extra touch of luxury. Tops sold separately.

BASINS

CR-102

crete

The CRETE series of concrete vessel basins offer clean lines and a contemporary feel.

Our CRETE collection of concrete products not only look aesthetically beautiful in your home but also serve a purpose.

1.

2.

3.

1. CRETE Oval/Organic Concrete Bench Mount Basin
(CR-102) 500x350x130mm

2. CRETE Rectangle Concrete Bench Mount Basin
(CR-101) 495x380x115mm

3. CRETE Round Concrete Bench Mount Basin
(CR-103) 360x360x120mm

Concrete is a porous material, as such we recommend applying flooring wax every 6 months, depending on usage and on-going care. When properly sealed concrete basins, baths and tops are easy to maintain. PLEASE NOTE: Installation of waste must include rubber on the top and bottom of the basin. If these are not included it will void the warranty of the basin. Holes drilled through the top need to have a non-acidic, anti-fungal silicone applied to the exposed raw edge left from any drilled-out hole/holes. When drilling any holes use a core drill bit suitable for concrete with water applied while drilling. Direct sunlight can cause concrete to slowly discolour over a long period of time. Localised Heat: Concrete expands when it is exposed to heat. Avoid excessive exposure to localised heat, as this may result in damage to your basin.

LUXURY SOLID SURFACE BASIN COLLECTION

Solid wall construction delivers elegant thin edges to maximise your space within the basin, while the smooth matte surface is scratch and chip resistant for incredible durability.

BATHS

CRE-1700

crete

Each CRETE Freestanding Bath is unique to the next. Its soft, streamlined edges have been meticulously designed to create refined form, function and texture.

Creating a statement in your next bathroom is easy and more affordable with the CRETE collection of Basins, Baths and Vanity Tops. The CRETE Freestanding Baths are available in 1500 and 1700mm sizes, in a neutral Grey colour.

CRETE Concrete Freestanding Bath
1500mm (CRE-1500) | 1700mm (CRE-1700)

Concrete is a porous material, as such we recommend applying flooring wax every 6 months, depending on usage and on-going care. When properly sealed concrete basins, baths and tops are easy to maintain.

PLEASE NOTE: Installation of waste must include rubber on the top and bottom. If these are not included it will void the warranty of the bath. Holes drilled through the top need to have a non-acidic, anti-fungal silicone applied to the exposed raw edge left from any drilled-out hole/holes. When drilling any holes use a core drill bit suitable for concrete with water applied while drilling. Direct sunlight can cause concrete to slowly discolour over a long period of time. Localised Heat: Concrete expands when it is exposed to heat. Avoid excessive exposure to localised heat, as this may result in damage to your basin.

Fine Lines

Featuring a thin single solid wall construction, our Solid Surface baths deliver more usable space within the bath. You can sit back and enjoy higher thermal energy storage than typical acrylic and steel baths and soak for as long as you like.

SOLID SURFACE

Solid surface / Standard bath

The wonder of solid surface is in its form, the creation is solid from the surface through to the core. It's due to this unique thin single solid wall construction that more usable space is created within the bath, giving you more area to stretch out in, slide down and indulge.

HEAT RETENTION

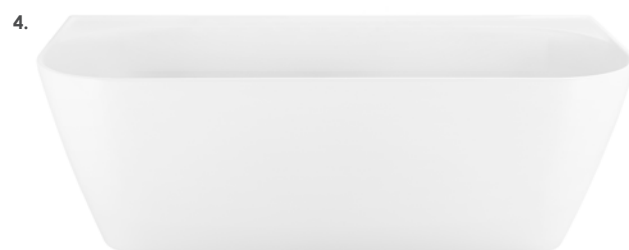

With up to 50% longer heat retention than typical acrylic and steel baths, you can experience the benefits of Solid Surface having a much higher thermal energy storage. So sit back, enjoy the warmth and soak for as long as you like.

DIVERTER KITS

DESIGN IT YOUR WAY!

Our range of Diverter Handle Kits bring timeless placement opportunities, so you have more flexibility when configuring the layout of your next bathroom.

Refreshing your look has never been so easy! In years to come, you can replace your Diverter Handle Kit with ease, by choosing a completely different colour, design style or by purchasing the 60mm Round or Square Dress Rings (sold separately). Our Diverter Handle Kits allow you to combine and choose a functional location for all your shower or bath fittings and outlets, such as Shower Heads, Showers on Sliding Rail, Bath Spouts, SPIN progressive mixers or your choice of mixer. They can be matched with our entire range, providing you with endless application options in your next bathroom renovation.

Also Available - 1 3/4 Bowl Sink (BU634522D)

WARRANTY INFORMATION

The products available at Highgrove Bathrooms have been manufactured under the highest standards of quality and workmanship. All Highgrove Bathrooms products carry warranties of up to and including 15 years. Please Refer to the below for warranty information per product.

All showers, tapware and toilets sold at Highgrove Bathrooms have been laboratory tested and certified compliant with the WELS. An Australian Government standard put in place to help reduce unnecessary water usage. A WELS efficient shower head alone uses 40-50% less water and the average toilet flush uses under 1/3 of the water that a traditional toilet would.

The WaterMark certification is used in relation to water supply, sewerage, plumbing and drainage goods. After being tested to comply with specific specifications and standards, the product can be WaterMark approved. Therefore you can be confident in the quality of your product when you see the WaterMark symbol.

NOTE

Note (*1): Excludes Damage to ceramic disk cartridges from pieces of copper tube, plastic tube, sand, dirt or thread tube etc. All speciality finishes are subject to 2 year replacement product and parts and 1 year replacement product and parts & labour. Note (*2): Jumper valves and ceramic disk spindles; 1 year parts only.

Note (*3): Excludes valves, seats, button assembly, links, flush pipes and other internal components which carry a 1 year replacement warranty

Note (*4): 1 year warranty applies to Mirrors on Mirrored Cabinets
